Subject Index

A

Abscess 673
Accessory lobe of the liver 326
Adjustable atlas 687
Adult respiratory distress syndrome 67
Amputation level selection 38
Antibody imaging 330
Antibody localisation 313
Aortic valve incompetence 204
Appearance time 96
APUD 108
Atherosclerosis 265
ATP metabolism 152
Attenuation calculation 712
Attenuation compensation 351
Attenuation correction 694, 701
Attenuation correction algorithm 248
Attenuation correction measurement 722
Autocorrelation spectroscopy 641
Automatic threshold selection method based on discriminant criteria 21
^{195m}Au 1

B

Biliary cirrhosis 587
Binding properties 605
Biodistribution 597
Biogenic amines 207
Biplane exercise ventriculography 26
Block detector system 719
Blood 100
Blood clearance 612
Blood pressure 118
Body/venous hematocrit ratio 32
Bone marrow diseases 230
Bone marrow expansion 357
Bone metastases 784
Bone metastasis 676
Bone scan 328, 670, 678
Bone scintigraphy 357, 676
Bone/muscle ratio 609
Bones 183, 269
Bone-seeking agents 265
Brain 16, 100, 764
Brain atlas 687
Breast neoplasms 61
Bronchial oat cell cancer 629
Broncho-alveolar lavage 646
Bull's eye display 133

C

Calibration 736
Cancer chemotherapy 61
Capillary permeability edema 67
Cardiopulmonary bypass 128
Cell labelling 262
Cerebral blood flow 1, 96
Cerebrovascular disease 746
Cerebrovascular diseases 9
Cholestasis 587
Cholesterol content 612
Chromatography 171
Circulating antigen 313
^{11}C-methionine 665
Colorectal carcinoma 302
Combined stress 81
Computer based simulation program 248
Computerized atlas 687
Computers 189
Congenital diaphragmatic hernia 591
Constrictive pericarditis 217
Contour determination 712
Contraction fraction 661
Coronary artery disease 244, 277, 336
Count correction 93
Count recovery 750
Cross calibration of PET systems 756
Cubed eggs 254
Cultured cardiac cells 180
Cultured hepatocytes 367
Cumulated activity 796

D

Data acquisition method 248
Delayed bone scans 265
Density analysis 93
Dextran 146
Diabetic foot lesions 38
Diabetic gangrene 38
Diastole 123
Dicopac test 57
Diethylentriaminopentacetic acid 211
Dipyridamol 81
Dipyridamole infusion 239
Distal stomach 254
Dosimetry 174, 260
DTPA 211
Dual head gamma camera 71
Dual photon absorptiometry 183, 269
Dynamic radionuclide venography 93
Dynamic scintigraphic studies 601

E

Echocardiography 204
Edge detection 87, 351
Effective dose equivalent 174
Ejection fraction 118
Elliptical contours 87
Embolisation, therapeutic 649
Emission computed tomography 746
Emission tomography 244
Endothelial cell function 207
Enteral protein loss 217
Eosinophil kinetics 274
Erythrocyte volume 32
Extramedullary hematopoiesis 761, 803
Extraosseous uptake 328, 670

F

^{18}F tumour efflux 225
^{18}F tumour persistence 225
^{18}F tumour uptake 225
Factor analysis 601, 767
Femoral vessels 265
^{18}F-labelled 5-fluorouracil 225
Flow-Equilibrium radionuclide venography 137
Fluorodeoxyglucose 61
Fourier analysis 767
5-FU resistance 225
5-FU sensitivity 225

G

^{67}Ga 612
^{67}Ga scan 800
^{67}Ga-scintigraphy 219
^{67}Ga uptake 152
Gastric emptying 254
Gastrointestinal scintigraphy 143
Gastrointestinal transit 260
Gated radionuclide ventriculography 767
Glomerular filtration rate 618
Glycerolipids 367
Glycosylated antibody 373
Gordon test 217
Granulocytes 605, 673

H

Healthy subjects 71
Hepatic arterial/portal supply 211
Hepatic artery 649
Hepatic blood flow 346
Hepatic insulin binding 292
Hepatic insulin resistance 292
Heterophilic antibodies 194
High resolution brain scanner 719
Homogenized eggs 254
Hypertension 118
Hypertrophic myocardiopathy 330

I

^{123}I-IMP 646
^{123}I-insulin 292
Image processing 351
Image quality 197
Image reconstruction 701
^{123}I-β-methyl-iodophenyl pentadecanoic acid (BMIPP) 341
^{131}I-MIBG 108
Immune Affinity Chromatography 321
Immune complex 313
Immunoradiometric assay 194
Immunoreactivity 157
Immunoscintigraphy 302, 321, 361
Immunotherapy 307
In vitro labeling 333
In vivo stability 333
^{111}In-antimyosin 330
Infantile endocarditis 219
Infarct size 26
Inflammatory bowel disease 197
^{111}In-granulocytes 197
^{111}In-oxine 274
Insulin kinetics 292
^{111}In 201
Iodoantipyrine 796
Iron 761

Ischemic heart disease 767
Isolation of hu CEA Mouse Anti-CEA Immune Complexes 321
Isotope dilution technique 32
Isotope test 771
I-123 IMP 746

K

Kinetic data 361

L

Labeled tablets 143
Lag phase 254
Large area detectors 694
Lectin 373
Leukoscintigraphy 197
Liposome stability 612
Liver 649
Liver circulation 211
Liver cirrhosis 346
Liver scintigraphy 326
Local cerebral blood flow 9
Lung disease 646
Lung dynamic scintigraphy 646
Lung dysfunction index 646
Lung scintigraphy 591
Lyme disease 330
Lymph flow 146
Lymphocytes 201
Lymphoma 230
Lymphoscintigraphy 146, 171

M

Magnetic resonance 764
Magnetic resonance imaging 230
Malignant lymphoma 800
Masked source 722
Measurements of scatter fractions 727
Medullary fat necrosis 678
Melanoma 629
Mercapto-acetyltriglycine-MAG-3 635
Metabolic data 701
Metaiodobenzylguanidine 207, 624, 629
Methyl-branched iodopalmitic acids 367
MIBG plasma kinetics 618
MIBG renal plasma clearance rate 618
Microfiltration 641
Mineral 183, 269
Modified power exponential function 254
Modified scintigrafic technique 38
Monoclonal antibodies 302, 307
Monoclonal antibodies radioimmunoscanning 655
Monoclonal antibody 605, 673
Monte Carlo 683
Multi ring camera 690, 741
Muscular injury 328
Myocardial blood flow 180
Myocardial infarction and ischemia 341
Myocardial perfusion 597
Myocardial perfusion imaging 280
Myocardial perfusion planar imaging 277
Myocardial perfusion SPECT 277
Myocardial scintigraphy 26, 81, 87
Myocardial size 661
Myocardial uptake 336
Myocarditis 330
Myocardium 78, 624

N

NaF and ouabain 152
Neoplasm metastasis 649
Neuro-Behçet syndrome 764
Non insulin dependent diabetes mellitus 292
Norepinephrine 118, 624
Nuclear oncology 784

O

Osteopetrosis 803
Osteosarcoma 162, 670
β-oxidation 78

P

Palliative internal radiotherapy 784
Pancreatic tumor 678
Parametric imaging 96
Peak filling rate 123
Perfusion 78
Pernicious anaemia 57
PET count rate performance, examples 705
PET count rate performance, test conditions 705
PET, positron emission tomograph 719
Pharmacokinetics 143
Pitfall 673
Plasmacytoma 230
Plasmin 771
Platelet deposition 128
Platelet labelling 296
Polycytemia vera 32
Portal blood flow 346
Positron camera system 719
Positron emission tomography 665, 683, 694, 701, 712, 722, 761, 764
Positron emission tomography (PET), physics 705
Positron tomography 690, 736, 741, 750
Prostacyclin 128
Prostatic acid phosphatase 157
Prostatic carcinoma 49, 780
Proximal stomach 254
Pulmonary hypoplasia 591
Pulmonary scintigraphy 67

Q

Quality control 146, 732, 736
Quantification 694, 712
Quantification of ischemia 26
Quantitative analysis 87

R

Rabbits 146
Radioactive iodine 796
Radioimaging 157
Radioimmunoscintigraphy 313
Radioiodinated fatty acid 78
Radiolabelled colloids 641
Radiolabelling 307
Radionuclide angiography 96, 204
Radionuclide gated heart pool scan 123
Radionuclide imaging 61, 230, 649, 673
Radionuclide myocardial perfusion imaging 113
Radionuclide ventriculography 133, 661
Radionuclides 330
Radiopharmaceutical 641
Radiopharmaceutical uptake 16
Radiopharmaceuticals 373
Random and scattered events 722
Rat model 313
Redistribution 746
Reginal left ventricular motility injury 767
Regional wall motion 133
Regions of interest 687
Renal disease 601
Renal/Transplantation 776
Rib 676
ROI's 687

S

Sarcoidosis 71
Scatter correction 351
Scatter correction schemes 727
Scatter in positron emission tomography 727
Scattering 683
Scintiangiography 211
Scintigraphy 296, 803
Scintiscanning 260
Screening test 771
Secondary hyperparathyroidism 49
Sensitivity in Positron emission tomography (PET) 756
Separation of Tc-MDP complexes 609
Septa removal 741
Sickle cell anemia 357
Simulation 683
Single photon absorptiometry 269
Single photon emission computed tomography (SPECT) 248, 351
Single photon emission computerized tomography (SPECT) 9
Small cell carcinoma 108
^{153}Sm-EDTMP dosimetry 784
Spatial resolution 750
SPECT 1, 16, 21, 26, 133, 189, 661
^{89}Sr therapy 49, 780
Stability 732
Stannous 201
Stress 118
Strontium kinetics 49, 780
Subcutaneous heparin injections 670
Subcutaneous injection 146
Subcutaneous tissue fat necrosis 678
Submaximal exercise 81

T

^{99m}Tc complexes 262
^{99m}Tc isonitriles 287
^{99m}Tc radiopharmaceuticals 174
^{99m}Tc-Albumin-scintigraphy 217
^{99m}Tc-DPO-leucocyte labelling 262
^{99m}Tc-DTPA 143, 776
^{99m}Tc-DTPA clearence 71
^{99m}Tc-hexamethylpropyleneamine oxime (HMPAO) 9
^{99m}Tc-hexamethylpropyleneamineoxime 100
^{99m}Tc-hexamibi myocardial imaging 113
^{99m}Tc-HMPAO 1
^{99m}Tc-HSA millimicospheres 803

^{99m}Tc-labeled carbomethoxy-isopropyl isonitrile (^{99m}Tc-CPI) 277
^{99m}Tc-labeled dextran 171
^{99m}Tc-leucocytes 262
^{99m}Tc-MAG3 776
^{99m}Tc-MIBI 661
^{99m}Tc-Phytate 162
^{99m}Tc-sulfur colloid 162
^{99m}Tc-TBI myocardial perfusion imaging 287
^{99m}Tc 201, 333, 641
Tc-99m-antigranulocyte antibodies 361
Tc-99m-hexamibi 280
Tc-99m-HMPAO 296
Tc-99m-labeled imaging agents 180
Tc-99m-methoxy isobutyl isonitrile 280
Tc radiopharmaceutical 597
Temperature drift 732
Thallium 336
Thallium scintigraphy 587
Thallium-201 thallous chloride 280
Therapy response 61
Three compartment model 1
Three dimensional reconstruction 741
Thyrotropin 194
Tissue culture 16
^{201}Tl 87, 376
^{201}TlCl 341
^{201}Tl scintigraphy 239
^{201}Tl washout 81
Tomography 189
Transcatheter arterial embolization 346
Transit time 96
Transmission 722
Trauma 676
Treatment effect 800
Tumor 373
Tumor cells 152
Tumor imaging 612
Tumour 673
Tumour uptake 376

U

Uptake and release 180
Uptake kinetics 1

V

Vasculitis 764
Velocity of radionuclide 93
Venous occlusion test 93
Venous thrombosis 771
V filter 21
Vitamin B_{12} malabsorption 57
Volume measurement 21
Volunteers 239

W

Whole body monitor 128
Wire chambers 690

X

^{133}Xe clearance method 346

Y

^{90}Y-silicate 641
^{90}Yttrium 307
